In January, we began looking at our older nonfiction books and replacing them with newer, updated information. That being said, all the old ones are now in our book sale. We sell these at 10 for $1, so come by and look to score some great deals!

New Books!

We've also been getting a lot of great new fiction and non-fiction books. Be sure to come by and see what's new. We're getting more and more picture books, young adult books, and adult books too.

Be sure to let the librarians know if you'd like us to order a special book just for you!
New Website

You may have noticed we've got a new website, and our catalog has a few more features than our old one. Our favorite one is the Watch Lists! You can find it by logging into your account at greenforestlibrary.org. Your username is your library card number (Yes, all the numbers, but no spaces!) and your default password is 1234. You can change both of these after you log in the first time.

After you log in, click the Interests tab. From there, you'll go down to My Watch Lists and click it to view them.

With Watch Lists, you'll be able to know when we get new books by your favorite authors, or by a subject you love. You'll also be able to automatically reserve these new items so you'll be first on the list to read them!

Click Add, at the bottom to create a new thing to watch for.

If you're watching for an author, be sure you put it in the right format, which is Lastname, Firstname. You must also spell it correctly. If you'd like to automatically reserve these items, be sure to check "Yes" as well.

To be sure it works properly, click on the red text, and if it brings up books, you did it right! If it's blank, check your spelling and try again.
